

AAKASH

MERN STACK DEVELOPER

SUMMARY

"Enthusiastic MERN Stack Developer with foundational knowledge in MongoDB, Express.js, React.js, and Node.js. Passionate about building scalable and user-friendly web applications, I am a quick learner with a collaborative mindset. Eager to apply my technical skills to deliver innovative solutions and contribute to the growth and success of the organization as I begin my professional journey."

WORK EXPERIENCE

■ 09.2024 - 12.2024

Legend Tech Solution, Puducherry

MERN Stack Developer -Intern

- As a MERN Stack Developer intern, I contributed to designing, developing, and deploying web applications using MongoDB, Express.js, React.js, and Node.js. Gained experience in building responsive UIs, creating RESTful APIs, managing databases, and optimizing performance. Enhanced problem-solving skills while collaborating with a team using Git.

PROJECTS

■ Myit Career

https://github.com/aakash4372/my_it_website

- "MyIT Career" is a ReactJS-based office management project that simplifies office operations through a responsive, high-performance web application. It ensures efficiency, scalability, and an interactive platform for employees and management.

■ College Library Management

https://github.com/aakash4372/my_it_website

- Developed a College Library Management System using the MERN stack with features like book management, user authentication, and real-time search. Delivered a responsive, user-friendly interface and optimized back-end performance for scalability.
